MEMORANDUM FOR: DDCI

SUBJECT : Unclassified Version of the Forgeries Study

25X1

According to [] you requested this unclassified version of the Forgeries Study to give to the SSCI. I suggest that we ask Cary to give it to Bill Miller with the suggestion that the Committee consider release of the document to the public through some appropriate mechanism. I would think it would be helpful to the Committee in fending off criticism that it is concerned only with what CIA is doing wrong, and that it is not giving sufficient attention to the threat from hostile intelligence agencies. It certainly ought to please ~~Malone~~ *Moynihan*!
